Note we need to add more than one photo for each product card. can you add multiple with arrow for scrolling. also the purchase cta for all products should be a series of options all landing on the contact form to send to Jenny - ideally the form gets prefilled by product details the user clicks on with the option to add more details or ask questions. but the form is connected to atomicfindsatx@gmail.com. So buttons will get a third option on product cards - View on Marketplace - Interested? Adopt me! Contact for purchase - View Details & Provenance	☐ Active
